Basic information: 1 private online course (divided into 2 or 3 sessions depending on the needs and the topics covered). The time to study all the subjects of the course is estimated between 3 and 4 hours. You will be free to ask questions at any time and we will delve into the topics in which you are most interested.

### Goals :

Cryptocurrencies are no longer just a fad, they have daily uses in our world now. We will study the basic functions of cryptocurrencies and the different methods to use them.

The world of finance is entering a new era. Crypto currencies operating with “smart contracts” offer a multitude of new tools. We will focus on the introduction to NFT and DeFi on the Ethereum and Solana blockchains and their respective ecosystems. We'll also explore what DAO and the metaverse have to offer.

As an investor it is important to have a comprehensive understanding of the market, stay on top of new projects and know how to protect your capital, how to spend it, and the taxation that exists on those assets.

### This training will allow you to:

- ❖ Discover the main cryptocurrencies.
- ❖ Be autonomous to use a wallet and make transactions.
- ❖ Understand and use the Metamask (ETH) and Phantom (SOL) wallets safely.
  
- ❖ Discover the SOLANA and Ethereum ecosystems.
- ❖ Understand and use DeFi tools.
- ❖ Minter and trade NFTs
- ❖ Have the tools to discover and follow NFT projects
  
- ❖ To be independent to discover projects and study their fundamentals.

- ❖ Track the cryptocurrency market with data other than the charts.
- ❖ Understand the usefulness of stable coins and the taxation in case of conversion into fiat currency (EURO, DOLLAR)
- ❖ Spend your cryptocurrencies.

Audience:

Investors

Crypto novice

Novice NFT

Novice DeFi

Prerequisites: Creation of an account on [FTX.com](https://ftx.com)

Have a suitable browser installed, in order of preference: Brave, Firefox, Chrome.

Have [Zoom](#) installed.

Lesson Plan :

A. Cryptocurrencies and transactions. (1h)

1. What is a cryptocurrency, an overview of Bitcoin (BTC) (10min)
2. Presentation of the two main blockchains offering the most products, Ethereum (ETH) et Solana (SOL) (15min)
3. Creation of a Metamask wallet, Phantom. Explanation of the operation and demonstration of a transaction SOL (20min)
4. Introduction to smart contracts (DeFi, NFT, DAO) (5min)
5. Introduction to Fundamentals and indicators (5min)

B. What smart contracts offer us. (1h20min)

1. Introduction to smart contracts (DeFi, NFT, DAO) (15min)
2. Presentation of the ecosystem DeFi on ETH (10min)
3. Presentation of the ecosystem DeFi on SOL (10min)
4. Presentation of the NFT ecosystem on ETH, future NFTs (20min)
5. Presentation of the NFT ecosystem on SOL, future NFTs (25min)
6. The tools to master to monitor projects. (10min)

### C. Study the market and protect your capital. (1h)

1. Fundamentals with CoinMarketCap (10min)
2. The Block Explorer tools(5min)
3. OnChains Analysis (10min)
4. The Stable Coins (15min)
5. Use your cryptocurrencies, spend them and tax (15min)

Teaching method : I adapt the training to your needs. Before this training I will let you fill out a form. This will allow me to better understand your objectives and the aspects that you would like to see in-depth.

Means : The course will be recorded and I will upload it to Youtube with a private link for you. This will allow you to come back to certain points of explanation if necessary in the future.

You will also have access to the NFT-SOLANA part of the Atelier Finance discord. You will be able to follow my selection of projects on SOLANA in real time and I will be happy to answer your questions.
